GENERAL AND APPLIED PLANT PHYSIOLOGY

Special issue, 2006

B. Janczura, J. Ahern and A. C. Cassells. Integrating Biological Strategies to Control Disease in Intensive Agriculture	5
U. Feller. Stomatal opening at elevated temperature: an underestimated regulatory mechanism?	19
S. Mapelli, M. Shorina, I. Brambilla I and V. Kuznetsov. Biochemical and Physiological Events Following Exposure to UV-B Radiation in Ice Plants	33
A. Krantev, R. Yordanova, L. Popova. Salicylic Acid decreases Cd toxicity in maize plants	45
T. Toncheva – Panova, M. Merakchiyska, R. Djingova, J. Ivanova, M. Sholeva, S. Paunova. Effect of Cu ²⁺ on the red microalga <i>Rhodella reticulata</i>	53
I. Stancheva, M. Geneva, G. Zehirov, G. Tsvetkova, M. Hristozkova, G. Georgiev. Effects of combined inoculation of pea plants with arbuscular mycorrhizal fungi and <i>Rhizobium</i> on nodule formation and nitrogen fixing activity	61
G. Tsvetkova, T. Teofilova, G. I. Georgiev. Effect of naringenin and quercetin on activity of <i>NodABC</i> genes of strain D293 and following nodulation and nitrogen fixation response of inoculated pea plants (<i>Pisum sativum</i> L.)	67
M. Hristozkova, M. Geneva, I. Stancheva. Response of inoculated pea plants (<i>Pisum sativum</i> L.) to root and foliar fertilizer application with reduced molybdenum concentration	73
V. Nenova. Effect of iron supply on growth and photosystem II efficiency of pea plants	81
L. Simova-Stoilova, V. Vassileva, T. Petrova, N. Tsenov, K. Demirevska, U. Feller. Proteolytic activity in wheat leaves during drought stress and recovery	91

P. Apostolova, I. Yaneva. Antioxidative defence in winter wheat plants during early cold acclimation	101
R. Zidarova and I. Pouneva. Physiological and biochemical characterization of antarctic isolate <i>Choricystis minor</i> during oxidative stress at different temperatures and light intensities	109
I. Iliev, G. Petkov, S. Furnadzhieva, R. Andreeva, J. Lukavsky. Membrane metabolites of <i>Arthonema africanum</i> strains from extreme habitats	117
A. Ivanova ¹ , J. Nechev, K. Stefanov. Effect of soil salinity on the lipid composition of halophyte plants from the sand bar of pomorie	125
I. Vaseva, D. Todorova, J. Malbeck, A. Trávníčková, I. Machackova, E. Karanov. Two pea varieties differ in cytokinin oxidase/ dehydrogenase response to UV-B Irradiation	131
