

BULGARIAN JOURNAL OF PLANT PHYSIOLOGY

Volume XXV, No. 1–2, 1999

Bulgarian Academy of Sciences

Dimitrina Nedeva, Anna Nikolova. Fresh and dry weight changes and germination capacity of natural or premature desiccated developing wheat seeds	3
Antoaneta Arsova. Adaptability of <i>Pinus nigra</i> Arn. depending on soil pH	16
Yuzeir Zeinalov, Liliana Maslenkova. Estimation of the quantum efficiency of photosynthesis. I. Theoretical ground and experimental approaches	26
N. I. Rekoslavskaya, O. V. Yurjeva, R. K. Salyaev, S. Mapelli, T. V. Kopytina. D-tryptophan as IAA source during wheat germination	39
Valya Vassileva, George Ignatov. Effect of polyamines on oxygen and metabolite transport across mitochondrial and symbiotic membranes of <i>Galega orientalis</i> nodules	49
Liliana Maslenkova, Yuzeir Zeinalov. Thermoluminescence and oxygen evolution in JA-treated barley (<i>Hordeum vulgare</i> L.)	58
Konstantin Benderliev. Algae and cyanobacteria release organic chelators in the presence of Fe(III) thus keeping iron dissolved	65
Irina Puneva, Tonka Toncheva-Panova, Milka Bozhkova. Effect of <i>Fusarium oxysporum</i> exudate on the growth and viability of <i>Scenedesmus acutus</i>	76
